

HAWAII OMNIBUS BILL

JUNE 24, 1960.—Ordered to be printed

Mr. LONG of Hawaii, from the Committee on Interior and Insular Affairs, submitted the following

R E P O R T

[To accompany H.R. 11602]

The Committee on Interior and Insular Affairs, to whom was referred the bill (H.R. 11602) to amend certain laws of the United States in light of the admission of the State of Hawaii into the Union, and for other purposes, having considered the same, report favorably thereon with amendments and recommend that the bill, as amended, do pass.

Public hearings were held on the Senate companion bill, S. 3054, introduced by the chairman of the committee, Senator James E. Murray of Montana, for himself and 10 other Senators, all of whom are members of the committee, of both political parties.

Committee action in amending and reporting favorably H.R. 11602 was unanimous.

PURPOSE OF MEASURE

H.R. 11602 is the Hawaii omnibus bill, a measure necessary to make complete and perfect the admission of Hawaii into the Union on a free and equal footing with the other 49 States. It amends a number of acts of Congress, some merely technically, such as changing the phraseology in a statute from "Territory of Hawaii" to "State of Hawaii." Other Federal laws are amended substantively, primarily to equalize Federal activities in the new State, especially with respect to grants-in-aid programs.

A similar omnibus bill, gathering up the loose ends, so to speak, of transition from territorial status to statehood was enacted with respect to Alaska last year in the first session of this Congress (Public Law 86-70).

BACKGROUND

H.R. 11602 and its Senate companion measure, S. 3054, were drafted by the Bureau of the Budget in consultation with all of the agencies of the executive branch of the Government, and the resulting bills were submitted in draft form to the President of the Senate and the Speaker of the House by executive communication, the text of which is set forth below.

At the request of Chairman Murray, Senator Henry M. Jackson of Washington conducted the public hearings on the measure and presided over executive sessions of the committee. Senator Jackson, as chairman of the Territories Subcommittee in the 85th and 86th Congress, had been a leader in bringing about statehood for both Alaska and Hawaii, and had extensive, firsthand knowledge both of the Statehood Act and of conditions in Hawaii as a Territory.

Sponsors of the Senate bill, in addition to Senator Murray, were Senators Allott, Carroll, Church, Goldwater, Gruening, Kuchel, Martin, and Moss, as well as both of the new Senators from Hawaii, Senators Fong and Long.

The House measure, H.R. 11602, was sponsored by Congressman Daniel K. Inouye of Hawaii after House committee hearings on five predecessor bills, and was reported by Congressman Leo O'Brien of New York, veteran chairman of the House Territories Subcommittee and a leader in the statehood action.

COMMITTEE AMENDMENTS

As stated, the committee held hearings on the administration bill, S. 3054, prior to passage by the House of H.R. 11602. The principal change from the Bureau of the Budget's draft was adoption of a new subsection, subsection (e) to section 15 of the bill as passed by the House the "education" section. This new subsection would place Hawaii on a basis of equality with all of the other States by extending to it the benefits of the Morrill Act of 1862 (12 Stat. 503; 7 U.S.C. 301-308) for aid to higher education.

The draft bill contained four provisions which were omitted in H.R. 11602, as passed by the House. The section proposing amendments to the Sugar Act of 1948 was omitted in view of the fact that the Agriculture Committee is now considering various changes in this act and will be in a better position than is the Committee on Interior and Insular Affairs to evaluate the various problems which may be involved in the Bureau of the Budget's proposed section 3.

Subsection (d) of section 15, as proposed by the Bureau of the Budget, which relates to parole and the Federal Youth Corrections Act, also was omitted. Between the time the bill was drafted and the time it was considered by the committee, the President issued the Executive order referred to in the subsection, thus making its enactment unnecessary.

Two other sections (secs. 36 and 40 of the original draft of bill) which relate to the operation of railroads in Hawaii and the jurisdiction of the Interstate Commerce Commission were omitted at the request of the Budget Bureau and the Commission. The latter is proposing a reexamination of its position with respect to the matters

covered by these sections and will, if it is determined to be appropriate, recommend legislation at a later date.

The changes from the House-passed bill made by the Senate committee are two:

(1) Deletion of the Small Business Investment Act section, section 8, because of enactment of Public Law 502 of this Congress dealing with the subject more comprehensively; and,

(2) Deletion of section 48, amending the Tariff Act of 1930, subsection (h) of section 49 respecting its effective date. The Tariff Act amendment was not in the administration's draft and, since approval by the House of H.R. 11602, the substance of the proposed amendment has been incorporated in a bill, H.R. 11748, by the Senate Finance Committee and approved by the Senate.

Except for these amendments, which under the circumstances are technical, the bill reported by the committee is identical with the House-approved bill.

PRINCIPAL PROVISIONS

An explanation of all of the provisions of H.R. 11602 are set forth in the section-by-section analysis of this report. However, some of the more important are discussed in the following paragraphs.

Land-grant college aid

Subsection (e) of section 14 of the reported bill authorizes an appropriation to the State of Hawaii to be held and used subject to the terms of the (first) Morrill Act of July 2, 1862. That act granted certain public lands (30,000 acres for each Senator and Representative in the Congress) to each State, or, in lieu of actual land, an equivalent amount of land scrip which might be sold to persons wishing to purchase lands in the Federal domain. Funds derived from these grants were dedicated to the support of State colleges whose leading objective is to teach branches of learning related to agriculture and mechanic arts "without exclusion to other scientific and classical studies." Until now, Hawaii has been the only State not to receive a grant under the first Morrill Act or under legislation in lieu thereof.

It was recognized that a literal application of the Morrill Act of 1862 was not feasible in 1960. The Federal Government does not have in Hawaii public lands appropriate for the purposes of the Morrill Act. Use of land scrip was discontinued long ago. Therefore, it was determined that the only feasible way to carry out the intent of the Morrill Act was to authorize a grant of money instead of land.

There was some difference of opinion as to the size of the grant. Senators Oren Long and Hiram Fong proposed that the grant be set at \$10 million. They noted the unusually high value of land in Hawaii, and also pointed out that in a number of other States, the current value of land grant funds, including the value of unsold acreage, equals or exceeds \$10 million. After prolonged consideration, the committee voted to authorize an appropriation of \$6 million—the identical sum approved by the House of Representatives.

Under the terms of the Morrill Act, made applicable by section 14(e) of this bill, moneys appropriated to the State of Hawaii must be safely invested so that the principal will remain forever unim-

paired, yielding an annual return for the support of the agricultural and mechanic arts college (or colleges) of the State. No more than 10 percent of the principal may be used to purchase land for campus building sites or experimental farms. Income derived from the principal may be used for any expenses of the college, whether or not incurred in teaching agriculture or mechanic arts, except for the construction and repair of buildings. (It should be noted that the Morrill Act of 1890 provides annual grants to each State primarily for instruction in these two fields. Under the 1890 Morrill Act, with which this legislation is not concerned, funds received by the States cannot be used to support courses in foreign languages, government, history, ethics, logic, military science, psychology, and certain other fields. There is no such restriction under the Morrill Act of 1862.)

Lands and records

Section 40 is intended to assure uniformity in the reporting procedure prescribed in section 5(e) of the Hawaii Admission Act. This subsection provided that all Federal agencies having control over land and property in Hawaii which is retained by the United States under the terms of the act shall report to the President on their continued need therefor and that such land and property as the President determines is no longer needed for Federal use shall be conveyed to the State of Hawaii.

The committee considered possible interpretations of section 5(e) of the Hawaii Statehood Act of 1959. No interpretation is offered at this time. The sense of the committee is that the factors involved are too complex to be considered within the time available and require independent consideration at a later date.

Section 42 is a clarifying amendment to section 5(b) of the Hawaii Admission Act to make certain that it is in line with section 4 of the same act. The latter refers to "available land" under the Hawaiian Homes Commission Act, where the quoted term is defined. Section 5(b), on the other hand, refers to "public lands." Although it is believed that the latter term is comprehensive enough to include the former, all possibility of doubt concerning the extent of the grant made by section 5(b) will be removed by the amendment.

Section 44 will assist the courts and administrative agencies of the State of Hawaii in performing their functions by transferring to them records, papers, and other materials accumulated by the United States and the Territory of Hawaii in connection with functions which have been transferred to the new State.

Equalized treatment

Of those sections of the bill which will put the conduct of Federal activities in Hawaii on a par with their conduct elsewhere, the most important are those which revise the method for computing various Federal grants-in-aid in Hawaii. These include the sections dealing with the Defense Education Act (sec. 15(a)), the Smith-Hughes Vocational Education Act (sec. 15(b)), the Impacted Areas Act (sec. 15(c)), the Interstate and Defense Highways Act (sec. 18), the Vocational Rehabilitation Act (sec. 21), the Water Pollution Control Act (sec. 24), the Public Health Service Act (sec. 30(d)), and the Social Security Act, including its provisions for old-age assistance, aid to dependent children, aid to the blind, aid to the permanently

and totally disabled, and child welfare services (sec. 31). Heretofore, these grants have been computed in a different manner for Hawaii from the way in which they are computed elsewhere. Under H.R. 11602, the method of allocation will become uniform. The dates upon which the new allocation formulas become effective are prescribed in section 49. The Small Reclamation Projects Act is made applicable to Hawaii as a Western State by section 31.

MAINTENANCE OF EXISTING ARRANGEMENTS

In a few instances it has been found desirable, notwithstanding Hawaii's admission to statehood, to maintain existing arrangements in Hawaii or between Hawaii and the mainland which differ from those in or between the other States. These cases do not affect the "equal footing" doctrine, but grow out either of Hawaii's geographical location or of historical developments which cannot be ignored. The partial exemption from the Federal transportation tax which travelers to and from Hawaii have heretofore enjoyed is continued by section 18(a) of the reported bill; the power of officers of the Coast and Geodetic Survey to act as notaries public outside the continental United States is retained by section 24; provision is made in section 29(b) for continuation of the present arrangements for treatment of lepers, in appropriate cases, in Hawaii instead of at Carville, La.; provision is likewise made in section 36 for maintenance (at least until the Federal Communications Commission reviews the matter thoroughly) of the treatment of telegraphic operations between the mainland and Hawaii as international rather than domestic in character; the provisions of section 91 of the Hawaiian Organic Act respecting payment into the treasury of the Territory of rentals received for certain properties will remain in force for the State until 1964 under section 42; and the existing arrangements for purchases by the State of Hawaii through, and its utilization of space controlled by, the General Services Administration are continued until 1964 by section 44.

Cost

The added costs to the Federal Government involved in H.R. 11602 will arise principally in connection with sections 14(e) and 30(a). Section 14(e) authorizes the appropriation of \$6 million for payment to the State of Hawaii for the same uses as under the Morrill Act of July 2, 1862. Section 30(a) eliminates unequal treatment for Hawaii so that henceforth the determination of its Federal percentage of public assistance grants will be based on relative per capita income as in other States. These are "open-ended" grants and will result in Hawaii receiving about \$215,000 a year more in Federal funds for assistance to the aged, dependent children, blind, and disabled than it now does. Very small increases in cost, a total of less than \$10,000 annually, are also provided in section 14(g).

SECTION-BY-SECTION ANALYSIS

The following analysis of the bill, section by section, which was furnished by the Bureau of the Budget with its original draft of bill, has been modified only to the extent necessary to make it correspond to the provisions of H.R. 11602, as reported.

SHORT TITLE

Section 1 provides that the act may be cited as the Hawaii Omnibus Act.

PRINTING OUTSIDE UNITED STATES

Section 2 would amend the law which authorizes the Secretary of State, notwithstanding the limitations contained in an 1895 statute, to provide for printing and binding outside the "continental United States" (5 U.S.C. 170g). To remove ambiguity, such phrase would be amended to refer instead to the "States of the United States and the District of Columbia." The 1895 statute (44 U.S.C. 111), requires, with exceptions not now pertinent, that printing for the U.S. Government be done at the Government Printing Office.

SOIL BANK ACT

Section 3 would amend section 113 of the Soil Bank Act (7 U.S.C. 1837), so that henceforth the States of Hawaii and Alaska would be accorded the treatment received by other States under the Conservation Reserve Program. Section 5 of the Alaska Omnibus Act perpetuated the special treatment which Alaska had received as a Territory, so that under the terms of that section, the program applied to the State of Alaska (and to the Territory of Hawaii), only if the Secretary of Agriculture determined that the national interest required it. Section 3 of the Hawaii omnibus legislation proposes to treat both Alaska and Hawaii in the same manner as the other States, and the application of the program to those areas would not be dependent upon a determination by the Secretary of Agriculture.

ARMED FORCES

Section 4 would provide perfecting amendments to title 10 of the United States Code. Subsection (a) amends the definition of the term "Territory" to delete the existing reference to Hawaii. Subsection (b) would amend two definitions in article 2 of the Uniform Code of Military Justice to delete references to "the main group of the Hawaiian Islands." Such references are unnecessary with Hawaii's admission because Hawaii is now a part of the United States. Subsection (c) strikes the special and now unnecessary reference to Hawaii in a section which comprehends all of the States. Subsection (d) deletes authority by which sea transportation may be made available to "Officers and employees of the Territory of Hawaii."

HOME LOAN BANK BOARD

Section 5 would provide perfecting amendments to two statutes administered by the Federal Home Loan Bank Board. The Federal Home Loan Bank Act and the Home Owners' Loan Act of 1933 would each be amended by striking references to Hawaii as a Territory. The sections to be amended are codified at 12 U.S.C. 1422(3) and 1466, respectively.

NATIONAL HOUSING ACT

Section 6 provides perfecting amendments to certain sections of the National Housing Act. The sections, which are codified at 12 U.S.C. 1706d, 1707(d), 1713(a)(7), 1736(d), 17471(q), and 1748(g), would all be amended to remove superfluous references to Hawaii.

SECURITIES AND EXCHANGE COMMISSION

Section 7 provides amendments to certain statutes administered by the Securities and Exchange Commission. The amendments are perfecting only, merely removing unnecessary references to Hawaii in definitions of the term "State," except for the amendment to section 6(a)(1) of the Investment Company Act of 1940. Such amendment relates to the provision in the Investment Company Act which provides an exemption from the provisions of the act to companies organized under the laws of the territories or possessions which confine offerings of their securities to residents of such territories or possessions. The effect of the amendment would be to remove Hawaii from the areas (all of which are territories or possessions) to which the special exemption applies, and to accord to Hawaii the same treatment as the other States receive. The sections to be amended are codified at 15 U.S.C. 77b(6), 78c(a)(16), 80a-2(a)(37), 80a-6(a)(1), and 80b-2(a)(18).

SOIL CONSERVATION AND DOMESTIC ALLOTMENT ACT

Subsection (a) of section 8 of the bill as reported would amend the section of the Soil Conservation and Domestic Allotment Act, codified at 16 U.S.C. 590h(b), which relates to the Secretary of Agriculture's utilization of elected county committees in administering the act. In the Territory of Hawaii, county committees have been appointed rather than elected. The amendment would have the effect of extending to Hawaii the same elected committee system as applies elsewhere in the States. Alaska is excepted from the proposed new language in light of the provision contained in section 13(a) of the Alaska Omnibus Act, which was enacted in recognition of the fact that fewer committees are required in Alaska than elsewhere in the States because of Alaska's relatively small soil conservation program.

Subsection (b) would provide an amendment to section 17(a) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590q(a)), to remove superfluous references to the Territory of Hawaii.

WATER STORAGE AND UTILIZATION

Section 9 amends the law by which the Federal Government assists the States and territories in providing facilities for water storage and utilization. The amendment is perfecting only, merely reflecting the new status of both Alaska and Hawaii. The section to be amended is codified at 16 U.S.C. 590r.

WILDLIFE RESTORATION

Section 10 provides a perfecting amendment to section 2 of the Wildlife Restoration Act (16 U.S.C. 669a), to remove the definition of the term "State." The term is defined by existing law to include the States and the territory of Hawaii.

FISHERY RESOURCES

Section 11 contains perfecting amendments to the statute, codified at 16 U.S.C. 758-758d, which authorizes the Secretary of the Interior to undertake, exploration, investigation, development, and maintenance projects for fishery resources in the Pacific. Inappropriate references to the "Territory" of Hawaii and to the "Hawaiian Islands" would be deleted or modified by the amendments.

FISH RESTORATION

Section 12 provides a perfecting amendment to section 2(d) of the Fish Restoration Act (16 U.S.C. 777a(d)), to remove the definition of the term "State." The term is defined by existing law to include the States and the territory of Hawaii.

CRIMINAL CODE

Subsection (a) of section 13 amends the definition of the term "United States" for purposes of provisions of the Criminal Code relating to narcotics by deleting superfluous references to the territories of Alaska and Hawaii.

Subsections (b) and (c) amend the Federal Youth Corrections Act and a 1958 statute (18 U.S.C. 4208, 4209), relating to parole to make them applicable in the U.S. District Court for the District of Hawaii, which court came into being upon the admission of Hawaii.

EDUCATION

Defense Education Act

Subsection (a) of section 14 of the reported bill amends section 103(a), paragraphs (2) and (3) of section 302(a), and section 1008 of the National Defense Education Act of 1958 (20 U.S.C. 403, 442, 588), so as to eliminate the special treatment of Hawaii. The amendments to paragraphs (2) and (3) of section 302(a) would provide for treating Hawaii the same as the States in the continental United States so that the per capita income of each State would be compared with the per capita income of the continental United States and Hawaii for purposes of determining the allocation of funds to the States for acquisition of math, science, or modern foreign language equipment. The amendments to sections 103(a) and 1008 would put Hawaii on the same basis as the other States for purposes of allocations to Hawaii of funds for the acquisition of such equipment, funds for State programs of expansion or improvement of public school supervisory services in mathematics, science, or modern foreign languages and funds for counseling and guidance testing programs.

These amendments would, under section 49 of the bill, be effective in the case of allotments for acquisition of equipment based on allot-

ment ratios which are promulgated after August 21, 1959, the date Hawaii was admitted into the Union as a State. They would be effective in the case of allotments for State programs of expansion or improvement of supervisory services, or for counseling and guidance and testing programs, for fiscal years beginning after Hawaii was admitted.

Vocational education

Subsection (b) of section 14 would repeal section 4 of the act of March 10, 1924 (20 U.S.C. 29), which extended the benefits of the Smith-Hughes vocational education law to Hawaii. With the advent of statehood, Hawaii would be entitled to those benefits anyway. Section 4 also authorized a separate appropriation of \$30,000 annually for this purpose.

Subsection (b) would, in addition, amend sections 2 and 4 of the Smith-Hughes vocational education law (20 U.S.C. 12, 14). These sections provide for allotments to the States for salaries of teachers and supervisors of agricultural subjects and for teacher-training in agriculture, trades, and industries, and home economics, respectively. Both sections include separate appropriations for a \$10,000 minimum allotment provided for the States. The amounts appropriated for the purpose of paying these minimums (\$27,000 and \$98,500, respectively) would be insufficient to provide the minimums for Hawaii as well as the other States, and hence they would be increased by the bill to \$28,500 and \$105,200, respectively.

These amendments would be applicable for fiscal years beginning after Hawaii was admitted into the Union as a State.

Subsection (b) also amends the Vocational Education Act of 1946 to eliminate from the definitions of "State" and "States and Territories" the specific mention of Hawaii (20 U.S.C. 15i, 15jj, and 15ggg). These are purely technical amendments having no substantive effect.

School construction assistance in federally affected areas

Subsection (c) of section 14 of the bill amends paragraph (13) of section 15 of Public Law 815 (81st Cong.), as amended (20 U.S.C. 645), which defines the term "State." The amendment would eliminate the specific reference to Hawaii. This is a purely technical amendment.

School operation assistance in federally affected areas

Subsection (d) of section 14 of the bill amends section 3(d) of Public Law 874 (81st Cong.), as amended (20 U.S.C. 238). This section of the law sets forth the method of determining the local contribution rate used in computing the amount of the payments to local school districts on account of federally connected children attending their schools. The determination of the rate for the territories and possessions, including Hawaii, and for States with substantial unorganized territory for which a State agency is the local educational agency is, however, separately provided for, with the Commissioner of Education authorized to make the determination consistently with the policies and principles provided for the determination of the rate in the case of school districts in other States.

The amendments to this section of the law would eliminate the specific mention of Hawaii as one of the "States" to which the special

provision applies, but would make the special provision applicable also to any State in which there is only one local educational agency. This would include Hawaii at present. These amendments would also specifically include Hawaii along with the 49 other States and the District of Columbia for purposes of determining the average per pupil expenditure therein, which is used, in turn, in determining the minimum local contribution rate.

These amendments would be applicable for fiscal years beginning after Hawaii was admitted into the Union as a State.

This subsection also amends paragraph (8) of section 9 of Public Law 874 (20 U.S.C., sec. 244), which defines the term "State." The amendment would eliminate the specific reference to Hawaii. This is a purely technical amendment.

Land-grant college aid

Subsection (e) of section 14 of the bill would authorize the appropriation of \$6 million to the State of Hawaii to be held and used subject to the terms of the Morrill Act of July 2, 1862. That act granted certain public lands to the States and provided that the proceeds from the sale and use of the granted lands be used for the endowment, support, and maintenance of colleges whose leading objective is to teach subjects related to agriculture and mechanic arts. Under the terms of the Morrill Act, the amount granted to the State of Hawaii would have to be safely invested by the State so that the principal will remain forever unimpaired.

IMPORTATION OF MILK AND CREAM

The act of February 15, 1927, as amended by the Alaska Omnibus Act, now applies to importation of milk and cream into the continental United States, including Alaska. Section 15 of the bill would, effective on the date of enactment of this legislation, make this law applicable also to importation of milk and cream into Hawaii. The section to be amended is codified at 21 U.S.C. 149 (b).

OPIUM POPPY CONTROL

Section 16 would provide a perfecting amendment to section 12 of the Opium Poppy Control Act of 1942 (21 U.S.C. 188k). It would strike a superfluous reference to the territory of Hawaii.

HIGHWAYS

Section 17 provides amendments to the highway laws. Subsection (a) amends the definition of the term "State" to reflect Hawaii's admission. Subsection (b) repeals two subsections applicable solely to Hawaii which provide, first, that the system of highways on which funds are to be expended in Hawaii shall be agreed upon by the Secretary of Commerce and the Governor of the territory; and secondly, that the Secretary is to give preference in Hawaii to projects which will expedite the completion of highways for the national defense or which will connect seaports with units of national parks.

Subsection (c) extends to Hawaii and Alaska the National System of Interstate and Defense Highways, and the succeeding subsections implement that extension with respect to Hawaii. Subsection (d) pro-

vides for the apportionment to Hawaii of the sum of \$12,375,000 for the fiscal year 1962. This sum results from applying to Hawaii for the fiscal year 1962 the formula (set forth at 23 U.S.C., sec. 104(b)), which was used in fiscal years 1957 through 1959 in apportioning interstate funds to the States. For purposes of Hawaii, that formula has been applied to the amount estimated to be available for the Interstate System for fiscal year 1962, after an estimated deduction of 1 percent for administrative purposes has been made. In fiscal years subsequent to 1962, Hawaii would receive apportionments under the formula (23 U.S.C. 104(d)(5)) which applies to the other States. Subsection (e) would amend 23 U.S.C., section 127, which relates to sizes and weights for vehicles using the Interstate System, so that in the case of Hawaii, laws or regulations in effect on February 1, 1960, rather than on July 1, 1956, would apply.

INTERNAL REVENUE

Section 18 contains amendments to the Internal Revenue Code of 1954. All, except for that contained in subsection (a), are perfecting in nature, merely removing references to Hawaii which are now superfluous. Subsection (a) relates to the definition of the term "continental United States" for purposes of the transportation tax. As originally enacted, the term was defined to mean "the existing 48 States and the District of Columbia." Both Alaska and Hawaii were excluded under that definition, and consequently a partial exemption from the transportation tax applied to travel to and from those two areas. Alaska's exclusion from "the continental United States," notwithstanding statehood, was preserved by section 22(b) of the Alaska Omnibus Act, which amended the definition to mean "the District of Columbia and the States other than Alaska." Subsection (a) of this section would preserve the same status for Hawaii, and the arguments for maintaining the existing exemption, which were accepted by the Congress in connection with the Alaska Omnibus legislation, are equally compelling in the case of Hawaii.

The Treasury Department considers that it would be contrary to the intent of the Congress, as expressed in 1956, to remove this partial exemption. The exemption was inserted in the law in 1956 in recognition of the fact that Hawaii is far removed from the States and that transportation between the States and Hawaii involves travel over the high seas. When the exemption amendment was considered in the Senate in 1956, the possible effect of future statehood was discussed in a memorandum submitted by Senator Morse (Congressional Record, Mar. 29, 1956, p. 5212). His statement asserted that statehood should not change the exemption. On this basis, together with the legislative history of the Alaska Omnibus Act, the Treasury Department considers that the partial exemption continues, not withstanding Hawaii's admission to the Union. Enactment of subsection (a) would confirm legislatively this administrative position.

JUDICIARY

Section 19 contains amendments to a section of the judicial code and to a 1950 statute (48 U.S.C. 644a), both of which relate to the special jurisdiction of the U.S. District Court for the District of Hawaii with

respect to cases arising on particular Pacific islands. The amendment would strike the reference to Kure Island in each statute, inasmuch as Kure is a part of the State of Hawaii and therefore need not be and should not be specified in the law. Kure, then referred to as Ocean Island, was a part of the official list of the Hawaiian Islands compiled at the time of annexation (S. Doc. 16, 55th Cong., 3d sess., 1898), and it was included in the islands admitted as the new State (see sec. 2 of the Hawaiian Statehood Act).

VOCATIONAL REHABILITATION

Subsection (a) of section 20 of the bill amends section 11(g) of the Vocational Rehabilitation Act (29 U.S.C. 41). This section of the act defines the term "State." The amendment would eliminate the specific reference to Hawaii. This is a purely technical amendment.

Subsection (b) of this section of the bill amends subsections (h) and (i) of section 11 of the Vocational Rehabilitation Act. These subsections define the terms "allotment percentage" and "Federal share." The amendments would eliminate the special provisions under which the allotment percentage for Hawaii is set at 50 percent and the Federal share at 60 percent, and would provide for the determination of these to be made in accordance with the relative per capita income of Hawaii, as is done in the case of other States. The amendments would also provide that in determining the allotment percentages and Federal shares for the States, the relative per capita income of each State will be compared with the per capita income of the 50 States (including Hawaii) and the District of Columbia.

These amendments would be effective in the case of allotment percentages and Federal shares promulgated after August 21, 1959. (The present promulgation will be effective until July 1, 1961.) The provisions relating to computations made before per capita income data for a full 3 years are available for Alaska have been transferred from the Alaska Omnibus Act (Public Law 86-70) to this bill and the amendments made by it. Also transferred to this bill (in sec. 49, relating to effective dates) are the provisions of the Alaska Omnibus Act which were designed to make more gradual the reduction, under the Vocational Rehabilitation Act, in the allotment percentage and Federal share for Alaska which resulted from treating Alaska fully as a State.

LABOR

Section 21 would provide perfecting amendments to three statutes administered by the Labor Department: the act establishing the U.S. Employment Service, the Fair Labor Standards Act, and the Welfare and Pension Plans Disclosure Act. The sections to be amended are codified at 29 U.S.C. 49b(b), 213(f), 217, and 302(a)(9), respectively. Subsections (a) and (b) delete obsolete references to Alaska and Hawaii; subsection (c) deletes an obsolete reference to the District Court for the Territory of Alaska; and subsection (d), which amends a law enacted after the Alaska Statehood Act, strikes a reference to Hawaii only.

NATIONAL GUARD

Section 22 would strike a reference to Hawaii in the definition of the term "Territory" for purposes of title 32, United States Code, relating to the National Guard.

WATER POLLUTION CONTROL ACT

Subsection (a) of section 23 of the bill amends section 5(h) of the Federal Water Pollution Control Act (33 U.S.C. 466d). This section defines the term "Federal share" which is used for determining the portion of the cost of the water pollution control program in each State which will be borne by the Federal Government. The amendments would eliminate the special treatment of Hawaii so that Hawaii would have its Federal share determined, as in the case of the other States, on the basis of its relative per capita income and so that, in determining the Federal shares for the States, the per capita income of each State would be compared with the per capita income of the 50 States (including Hawaii) and the District of Columbia.

These amendments would be effective for promulgations of the Federal shares made after Hawaii is admitted. The provisions relating to computations made before per capita income data for a full 3 years are available for Alaska have been transferred from the Alaska Omnibus Act (Public Law 86-70) to this bill and the amendments made by it.

Subsection (b) of this section of the bill amends section 11(d) of the Federal Water Pollution Control Act (33 U.S.C. 466j) which defines State, to eliminate the special mention of Hawaii. This is a purely technical amendment.

COAST AND GEODETIC SURVEY

Section 24 amends the act of August 3, 1956 (33 U.S.C. 875), so as to continue the authority of officers of the Coast and Geodetic Survey to serve as notaries public for personnel of the Survey serving in isolated areas outside the 48 States and the District of Columbia. With the admission of Alaska and Hawaii into the Union, designated officers of the Coast and Geodetic Survey are no longer authorized to exercise the power of notaries public in those areas. Frequently personnel serving outside the continental United States or in Alaska find it necessary to utilize the services of a notary public and are unable to do so without undue personal expense or disruption of the work of the party to which they are attached.

VETERANS' ADMINISTRATION

Subsection (a) of section 25 would amend the law which relates to the authority of the Administrator of Veterans' Affairs to provide hospital care and medical services abroad. The amendment would not change the law, but would merely recognize Hawaii's admission to the Union.

Subsection (b) relates to the authority of the Veterans' Administration under section 903(b) of title 38 (Public Law 85-857), to transport the bodies of veterans who have died in VA facilities. Existing law, as amended by the Alaska Omnibus Act, provides that (a) when a death occurs in the continental United States (including Alaska), transportation may be provided "to the place of burial in the United States (including Alaska)"; and (b) when a death occurs in a Territory, Commonwealth, or possession, transportation may be provided to the place of burial within such Territory, Commonwealth, or possession. Under existing law, therefore, no explicit provision is included for the transportation of deceased veterans from Hawaii to the other States. Similarly, there is no explicit provision for the transportation of deceased veterans from the other States to Hawaii. Moreover, doubt exists whether authority now exists to transport bodies within Hawaii. Subsection (b) of the proposed bill would confer these three powers on the Administrator, and in so doing would remove the statutory distinctions between Hawaii and the other States. The term "continental United States," as used in the amendment carried in subsection (b), includes Alaska, since section 48 of the Alaska Omnibus Act makes clear that in any law enacted after the Alaska Omnibus Act, the term "continental United States" means the 49 States and the District of Columbia, unless otherwise expressly provided.

Subsection (c) is a perfecting amendment only, to remove an unnecessary reference to Hawaii in the definition of the term "State."

DAVIS-BACON ACT

Section 26 strikes out superfluous reference to the Territories of Alaska and Hawaii in the Davis-Bacon Act (40 U.S.C. 276a), which relates to wage rates on certain public projects.

FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES ACT

Section 27 provides perfecting amendments to the Federal Property and Administrative Services Act of 1949, as amended. By removing references to the continental United States, the first three would have the effect of providing the same treatment for Hawaii as the other States receive. The fourth removes an unnecessary reference to Hawaii in the definition of the term "State." The sections to be amended are codified, respectively at 40 U.S.C. 472(f), 491(j), 514(c), and 522(a).

BUY AMERICAN ACT

Section 28 amends the Buy American Act to remove Hawaii from the definition of the terms "public use," "public building," and "public work". The act will continue to apply to Federal activities in Hawaii, but will not apply to acquisitions by the State of Hawaii. The section to be amended is codified at 41 U.S.C. 10c(b). A similar amendment in the case of Alaska is contained in section 43 of the Alaska Omnibus Act.

PUBLIC HEALTH SERVICE ACT

Subsection (a) of section 29 of the bill amends section 2(f) of the Public Health Service Act (42 U.S.C. 201), which defines the term "State" for purposes of the act. This is a purely technical amendment eliminating the specific inclusion of Hawaii as a State.

Subsection (b) amends section 331 of the Public Health Service Act (42 U.S.C. 255), which relates to treatment of persons afflicted with leprosy. Generally, all such persons are treated at the Carville, La., Leprosarium. However, provision is made for payments from Public Health Service appropriations to Hawaii (when authorized by the appropriations) to enable the latter to provide such care at its own facilities. Subsection (b) of the bill would continue this special provision and merely makes technical amendments to section 331.

Subsection (c) amends section 361 of the Public Health Service Act (42 U.S.C. 264), relating to apprehension and detention of individuals with communicable disease who may be coming into one of the States or a possession from a foreign country, Hawaii, or a possession. The amendment would make this inapplicable to persons coming from Hawaii, thereby equating Hawaii to the other States insofar as the foreign quarantine provisions are concerned.

Subsection (d) amends section 631(a) of the Public Health Service Act (42 U.S.C. 291i). This section describes the method of determining allotment percentages which are used in the allocation of the appropriations for hospital and medical service facilities construction under title VI of the Public Health Service Act. They are also used in connection with determining the Federal share of the cost of construction. The amendments would eliminate the special treatment for Hawaii so that it would have its percentage based, as in the case of the other States, on its relative per capita income. The amendments would also provide that in determining the allotment percentages of the States, the per capita income of each State will be compared with the per capita of the 50 States (including Hawaii) and the District of Columbia. The Federal share of Hawaii would also be determined in the manner provided for the other States.

These amendments would be applicable in the case of promulgations of allotment percentages and Federal shares made after Hawaii's admission into the Union as a State. The provisions relating to computations made before per capita income data for a full 3 years are available for Alaska have been transferred from the Alaska Omnibus Act (Public Law 86-70) to this bill and the amendments made by it.

This subsection also amends section 631(d) of the Public Health Service Act, which defines the term "States," to eliminate the specific reference to Hawaii. This is a purely technical amendment.

SOCIAL SECURITY ACT

Subsection (a) of section 30 of the bill amends section 1101(a) (8) of the Social Security Act (42 U.S.C. 1301). This section defines the term "Federal percentage" which is used in determining the portion

of the expenditures in each State for old-age assistance, aid to dependent children, aid to the blind, or aid to the permanently and totally disabled which will be borne by the Federal Government. The amendments would eliminate the special treatment for Hawaii so that it would have the determination of its Federal percentage made, as in the case of the other States, on the basis of its relative per capita income and so that, in determining the Federal percentages for the States, the per capita income of each State would be compared with the per capita income of the 50 States (including Hawaii) and the District of Columbia.

The amendments to section 1101(a)(8) of the Social Security Act, basing its Federal percentage on its relative per capita income, would be effective for calendar quarters beginning with the calendar quarter in which the bill is enacted. The others would be effective for promulgations of the Federal percentages made after Hawaii's admission into the Union as a State.

Subsection (b) amends section 524 of the Social Security Act (42 U.S.C. 724). This section defines the terms "allotment percentage" and "Federal share" for purposes of determining the allocation of the appropriations for child welfare services under part 3 of title V of the Social Security Act among the States and the portion of the expenditures for this purpose in each State which will be borne by the Federal Government.

The amendments would provide for treating Hawaii the same as the States in the continental United States so that the per capita income of each State would be compared with the per capita income of the 50 States (including Hawaii) and the District of Columbia for purposes of determining the Federal percentages and Federal shares for the States.

The amendments made by this subsection of the bill would be effective for promulgations of allotment percentages and Federal shares made after Hawaii was admitted into the Union as a State.

The provisions relating to computations (of allotment percentages and Federal percentages), under sections 524 and 1101(a)(8) of the Social Security Act, made before per capita income data for a full 3 years are available for Alaska have been transferred from the Alaska Omnibus Act (Public Law 86-70) to this bill and the amendments made by it.

Subsection (c) of this section of the bill amends the last sentence of section 202(i) of the Social Security Act (42 U.S.C. 402). This section of the act provides for lump-sum payments in certain cases of death of an individual insured under the old-age, survivors, and disability insurance program. The application for such payments must be filed within 2 years of the date of death, except that, in the case of the death outside the 49 States and the District of Columbia of a member of the Armed Forces (including commissioned officers of the Public Health Service and the Coast and Geodetic Survey) who is "returned" to any of the 49 States, the District, or any U.S. territory or possession for interment or reinterment, the 2-year period begins with such interment or reinterment. This special treatment would no longer be provided in case of deaths in Hawaii. It should be noted that the 2 years may be extended for as much as an additional 2

years if good cause for the failure to file within the initial 2-year period is shown.

These amendments would be effective in the case of deaths occurring on or after the date of Hawaii's admission into the Union as a State.

This subsection of the bill also amends subsections (h) and (i) of section 210 of the Social Security Act (42 U.S.C. 410), which define "State" and "United States" for purposes of the old-age, survivors, and disability insurance program. These are purely technical amendments eliminating the specific inclusion of Hawaii in these terms.

Subsection (d) of this section of the bill amends paragraphs (1) and (2) of section 1101(a) of the Social Security Act (42 U.S.C. 1301), which define "State" and "United States" for purposes of the act. These are also purely technical amendments eliminating the specific inclusion of Hawaii in these terms.

Subsections (e) and (f) contain technical amendments to section 218 of the Social Security Act (42 U.S.C. 418), relating to voluntary agreements for coverage of State and local employees. The amendments would remove references to Hawaii as a territory.

Subsection (g) removes superfluous references to Alaska and Hawaii in a definition of the term "State" (42 U.S.C. 1361(a)).

SMALL RECLAMATION PROJECTS

Section 31 would extend to Hawaii the provisions of the Small Reclamation Projects Act of 1956 (43 U.S.C. 422a et seq.). The act now authorizes the Bureau of Reclamation to make loans and grants for the construction and rehabilitation and betterment of small projects in the 17 western reclamation States, and it appears that conditions in Hawaii are such that a considerable portion of its irrigation potential could be developed through projects within the scope of the small projects program. In general a small project, for purposes of the act, is a project the cost of which does not exceed \$5 million. A project the estimated cost of which is between \$5 and \$10 million may also qualify, however, under certain circumstances.

CONGRESSIONAL RECORD

Section 32 amends the law relating to the gratuitous distribution of copies of the Congressional Record. Existing law provides that the Governors of the States shall receive one copy in both daily and bound form, while the Governors of the territories receive five in both daily and bound form. The amendment would strike the reference to Hawaii in the latter provision so that the Governor of the new State would be accorded the treatment of a State Governor rather than a territorial Governor. The section to be amended is codified at 44 U.S.C. 183.

FEDERAL REGISTER

Section 33 amends the Federal Register Act so that henceforth publication in the Federal Register of notice of hearing will be regarded as notice to persons residing in Hawaii, just as it is regarded as notice to persons residing in all other States. Under circumstances described in the statute, such publication is, under existing law, ade-

quate with respect to residents of the continental United States, including Alaska. The amendment would extend the provision to Hawaii as well. The section to be amended is codified at 44 U.S.C. 308.

HOME PORTS OF VESSELS

Section 34 would amend the law (46 U.S.C. 18), which requires "every vessel of the United States" to have a home port in the United States, Alaska, Hawaii, or Puerto Rico. The amendment would strike unnecessary references to Alaska and Hawaii.

MERCHANT MARINE ACT, 1936

Section 35 amends three sections of the Merchant Marine Act, 1936 in order to include shipyards in Hawaii and Alaska among shipyards in which construction and repair work can be carried on for vessels covered by construction and operating subsidies awarded under that act. The sections to be amended are codified at 46 U.S.C. 1155(a), 1176, and 1192, respectively.

COMMUNICATIONS ACT

Section 36 would amend the definition of the term "continental United States" for purposes of section 222 of the Federal Communications Act of 1934 (47 U.S.C. 222), to preserve, at least for the immediate future, Hawaii's exclusion from the definition. As will appear below further consideration by the Federal Communications Commission may at a later date indicate that other or different amendments are desirable.

Hawaii has historically been regarded as outside the United States for purposes of the transmission of telegraph messages. Section 222 of the Federal Communications Act, which deals with consolidations, and mergers of telegraph carriers, recognized this fact by excluding Hawaii from "domestic telegraph operations" for purposes of that section. This exclusion was apparently based on geographical considerations, rather than on considerations of political status, as evidence by the fact that Alaska (which at the time of enactment of section 222 in 1943 occupied the same political status as Hawaii), was placed within the continental United States and thus included within domestic telegraph operations. The proposed amendment would preserve Hawaii's exclusion from the continental United States for purposes of section 222. It would, additionally, confirm current practices under which telegraph messages between the mainland and Hawaii are "international telegraph operations" on international frequencies and under an international rate structure.

The amendment to section 222 is necessary now to maintain the status quo, inasmuch as without such an amendment, it could reasonably be argued that Hawaii has, with its admission, become a part of "domestic telegraph operations" for purposes of the section. It may later develop, however, that different amendments may prove more suitable. The Federal Communications Commission has instituted an inquiry (docket No. 13188, In the Matter of Amendment of the Communications Act of 1934, as amended, relating to telegraph service with Hawaii), the purpose of which is to enable the Commission to

receive from interested parties their views as to what changes in the Communications Act, if any, the Commission should recommend to the Congress. Before making a determination as to what changes it recommends, other than the foregoing which would merely preserve current arrangements, the Federal Communications Commission will require more time to complete its inquiry.

AIRCRAFT LOAN GUARANTEES

Section 37 would provide a perfecting amendment to the 1957 statute (set out as a note following 49 U.S.C. 1324), which authorizes loans for the purchase of aircraft and equipment. The amendment removes a reference to the "Territory" of Hawaii.

REAL PROPERTY TRANSACTIONS

Section 38 amends the statute which requires the Director of the Office of Civil and Defense Mobilization to come into agreement with the Armed Services Committees of the Congress with respect to certain real property transactions. The amendment would in effect remove a superfluous reference to Hawaii. The section to be amended is codified at 50 U.S.C. 2285(c).

SELECTIVE SERVICE

Section 39 would remove an unnecessary reference to Hawaii in the section of the Universal Military Training and Service Act which defines the term "United States" (50 U.S.C., app. 466(b)). The amendment is perfecting only.

REPORTS ON FEDERAL LAND USE

Section 40 would implement section 5(e) of the Hawaiian Statehood Act, which requires each Federal agency to report within 5 years following Hawaii's admission to the Union on certain Federal land or property in Hawaii over which it has control. The report must state "the facts regarding (the agency's) * * * continued need for such land or property," and if the President decides that it is no longer needed by the United States, it must be conveyed to the State. The amendment carried in section 42 would require the President to prescribe uniform procedures governing the agency reports. Unless such procedures are prescribed, agency reports can be expected to differ materially in nature and extent, and they may lack sufficient coordination with other agencies.

HAWAIIAN HOMES COMMISSION LANDS

Section 41 would correct a possible defect in the conveyance of lands to Hawaii under the Statehood Act. Section 5(b) conveys to the new State, with exceptions not now pertinent, all public lands ceded and transferred by the Republic of Hawaii to the United States at the time of annexation. The definition of the lands conveyed by that section, however, contained in section 5(g), differs from the definition of the lands which could, as a matter of law, comprise lands

made available to the Hawaiian Homes Commission (see 48 U.S.C. 692(a)(2), 663(3), 697). The "available lands" for Hawaiian Homes Commission purposes may not, in fact, include lands that were not ceded land, but in order to establish with certainty that all "available lands" have been transferred to Hawaii, the further phrase proposed to be added by section 40 is necessary.

LEASE BY UNITED STATES OF PUBLIC PROPERTY OF HAWAII

Section 42 relates to section 91 of the Hawaiian Organic Act (48 U.S.C. 511), under which the public property of the Republic of Hawaii which had been ceded to the United States at the time of annexation was placed in the possession, use, and control of the Territory until taken for the uses and purposes of the United States. If so taken, but if not used for public purposes, the section further provided that any rent or consideration received by the United States from such public property, if leased, rented, or granted upon revocable permit to private parties, would be covered into the treasury of the Territory. Section 46 would provide that during the 5-year period immediately following Hawaii's admission, any such rentals or other consideration would continue to be paid to the treasury of Hawaii. The 5-year term was selected because by the end of that period, Federal agencies will have assessed their need for retaining all such property, and that which is no longer required by the United States will be conveyed to the State.

TRANSFER OF RECORDS

Section 43(a) provides for the transfer to the State of records, and other papers, noncurrent as well as current, accumulated in connection with functions which have been assumed by the State. Certain court records, for example, created by courts and court officers established by the Organic Act, might have the status of Federal records, yet their successor State courts and officers can be expected to have a continuing need for such records. There would also be transferred records and other papers in the custody of the Public Archives of Hawaii.

Subsection (b) relates to books and other materials, principally legal reference materials, which have been made available to territorial courts and agencies to enable them better to perform functions conferred upon them by the Hawaiian Organic Act and related statutes.

USE OF GSA SERVICES OR FACILITIES

Section 44 would permit the State of Hawaii to use services or facilities of the General Services Administration, upon payment of compensation therefor, for an interim period ending August 21, 1964. Under this provision the State of Hawaii could make purchases through the General Services Administration, as the territory was enabled to do under a provision contained in annual Interior Department appropria-

tion acts. It could also utilize space in certain Federal properties in Hawaii under the control of the General Services Administration.

PURCHASES OF TYPEWRITERS

Section 45 amends a paragraph of the current Independent Offices Appropriation Act (Public Law 86-255) which prohibits the use of funds "Within the continental limits of the United States" for the purchase of typewriters unless the purchase conforms to regulations issued under the Federal Property and Administrative Services Act. The amendment would have the effect of placing Hawaii (and Alaska) within the continental limits of the United States for this purpose. The language to be amended is contained in the paragraph headed "General Provisions" under the portion of title I which is devoted to the General Services Administration (73 Stat. 500, 507).

FEDERAL MARITIME BOARD

Section 46 corrects a typographical error in section 18(a) of the Hawaii Statehood Act which, as enacted, provides that nothing contained in the act shall be construed "is conferring" certain jurisdiction on the Interstate Commerce Commission.

EFFECTIVE DATES

The provisions of section 47 of the bill as reported, which contains the effective dates for certain of the amendments included in the earlier sections, have been discussed for the most part in the above discussion of the amendments.

ADMINISTRATION OF PALMYRA, MIDWAY, AND WAKE

Section 48 confers upon such officers and agencies as the President designates all executive and legislative authority necessary for discharging the responsibilities of civil government on Palmyra, Midway, and Wake. The first sentence of the section is similar to the authority already conferred by the Congress in the case of American Samoa (48 U.S.C. 1431a(c)) and the Trust Territory of the Pacific Islands (68 Stat. 330). The section confers more limited judicial authority, however, inasmuch as the act of June 15, 1950 (48 U.S.C. 644a), as amended by the Hawaiian Statehood Act, already confers certain jurisdiction over civil and criminal cases arising on such islands to the Federal District Court in Hawaii. Under the terms of existing law, Federal admiralty law applies to such cases. Under the provisions of the proposed section 50, judicial authority, other than that contained in the 1950 act, is also conferred. Under the authority contained in the section, those charged with the administration of the islands in question could create local courts and could vest in them jurisdiction over matters not covered by the 1950 statute, such as automobile traffic offenses.

The second sentence of the section authorizes the person designated by the President to administer Palmyra to place additional jurisdiction, judicial functions, and duties in the District Court of Hawaii. Prior to statehood, Palmyra was a part of the Territory of Hawaii, and Hawaiian laws thus applied to it. These included the Territory's land registration laws, a matter of significance in the case of Palmyra in light of the litigation which has arisen on this subject (see *United States v. Fullard-Leo*, 331 U.S. 256 (1947)). It is therefore likely that the agency charged with Palmyra's administration, now the Interior Department, will wish to arrange for a land registration system for the island, and use of the District Court of Hawaii for this purpose would seem appropriate. Given the virtually uninhabited nature of Palmyra, it would be unwise for the administrator to create a local court solely for the purpose of providing a land registration system. The authority contained in the last sentence is not restricted to land registration, for it may develop that the services of the District Court will be required in other judicial matters as well, but it currently appears that land registration may be the only subject involved.

OTHER SUBJECTS

Section 49 is designed to avoid any inference, from the inclusion of amendments to certain statutes and the omission of amendments to others, that it is intended to affect the applicability in or to Hawaii of statutes not so amended.

SEPARABILITY

Section 50 provides a separability clause.

EXECUTIVE COMMUNICATION

EXECUTIVE OFFICE OF THE PRESIDENT,
BUREAU OF THE BUDGET,
Washington, D.C., February 12, 1960.

HON. RICHARD M. NIXON,
President of the Senate,
Washington, D.C.

MY DEAR MR. PRESIDENT: There is forwarded herewith a draft of legislation to amend certain laws of the United States in light of the admission of the State of Hawaii into the Union, and for other purposes.

This proposal is designed to make those changes in Federal laws which have become necessary and desirable because of Hawaii's admission into the Union "on an equal footing with the other States in all respects whatever." The President noted in his 1961 budget message to the Congress that "as in the case of Alaska, comprehensive legislation will be necessary to enable Hawaii to take its place as the equal of the other 49 States. Recommendations will be transmitted to the Congress concerning those changes needed in Federal laws in order to bring Hawaii under the same general laws, rules, and policies as are applicable to the other States."

The proposed legislation would (1) make Hawaii eligible to participate in a number of Federal programs on a comparable basis with the other States; (2) authorize measures to facilitate an orderly transition; (3) determine the applicability or inapplicability of certain Federal laws to Hawaii; (4) delete inappropriate references to the "Territory of Hawaii" in Federal statutes and make other necessary technical and perfecting amendments; and (5) provide for the civil government of Palmyra, Midway, and Wake Islands.

Hawaii already participates in the majority of Federal grant-in-aid programs on the same basis as other States. There are a number of Federal grant-in-aid programs, however, under which Hawaii is still accorded, as it was when a Territory, treatment different from that of other States. In accordance with the principle that Hawaii, as a full and equal member of the Union, should not receive more or less favorable treatment than other States, the proposed legislation would amend pertinent laws providing Federal assistance for national defense education, vocational education, school construction, and operation in federally affected areas, construction of interstate and defense highways, vocational rehabilitation, water pollution control, hospital and medical facilities construction, old-age assistance, aid to dependent children, aid to the blind, aid to the permanently and totally disabled, and child welfare services to bring Hawaii under the apportionment and matching formulas or other provisions applicable to the 49 States as soon as possible.

Under the provisions of the legislative proposal both Hawaii and Alaska would be accorded the treatment received by other States under the conservation reserve program. At present the program applies to these States only if the Secretary of Agriculture determines that the national interest requires it. Hawaii also would be brought under the Small Reclamation Projects Act of 1956 which now authorizes Federal assistance for the development of small irrigation projects in the 17 Western States. The Soil Conservation and Domestic Allotment Act would be amended to provide for the election of members of county committees as in the other States. Members of such committees in Hawaii are a present appointed by the Secretary of Agriculture.

Several sections of the draft bill are concerned primarily with transitional problems. To assist the State in achieving an orderly transition, the General Services Administration would be authorized to provide space in Federal buildings and other services to the State of Hawaii during an interim period. The bill also would provide for transfer to the State of official records and papers. For a 5-year transitional period the State would be accorded the same rights as formerly possessed by the Territorial government with respect to income derived by the Federal Government from the lease or rental of public properties of the Republic of Hawaii which were ceded to the United States at the time of annexation. Section 5(e) of the Hawaii Statehood Act requires each Federal agency to report within 5 years following Hawaii's admission into the Union on its need for certain Federal lands or properties in Hawaii over which it has control. The proposed legislation would require the President to prescribe proce-

dures to assure that the reports on Federal land needs in Hawaii are prepared in accordance with uniform policies and properly coordinated.

The proposed legislation would extend the applicability of certain Federal laws to Hawaii. These include a portion of the Investment Company Act of 1940, not hitherto applicable to certain Hawaiian companies; the Federal Youth Corrections Act; certain provisions relating to parole; the act of February 15, 1927, relating to the importation of milk and cream; a statute relating to the transportation of bodies of veterans who have died in Veterans' Administration facilities; section 29 of the Federal Register Act relating to notice of hearings; and sections of the Merchant Marine Act of 1936 which designate shipyards authorized to construct and repair vessels receiving Federal subsidies. Those parts of the Interstate Commerce Act dealing with regulation of railroad and pipeline carriers, motor carriers, water carriers, and freight forwarders and related laws would be made inapplicable to Hawaii. Due to the peculiarities of Hawaii's geographical position and the character of its transportation services, the Interstate Commerce Commission has recommended that Hawaii be exempt from its jurisdiction. Jurisdiction over water transportation between ports of Hawaii and ports of other States is vested by the Hawaii Statehood Act in the Federal Maritime Board and would be unaffected. Hawaii also would retain its partial exemption from the tax on transportation.

The draft bill would amend the definition of the term "continental United States" in section 222 of the Federal Communications Act of 1934 so as to preserve Hawaii's exclusion from that definition. Section 222, which deals with consolidations and mergers of telegraph carriers, excluded Hawaii from "domestic telegraph operations" for purposes of the section. The amendment would preserve present arrangements under which telegraph messages between the mainland and Hawaii are classified as "international telegraph operations" pending the outcome of proceedings which have been instituted by the Federal Communications Commission to determine whether Hawaii should remain in the international, rather than the domestic, category.

Section 5(b) of the Hawaii Statehood Act would be amended to correct a possible defect in the conveyance of lands to Hawaii. Section 5(b) conveys to the new State, with certain exceptions, all public lands ceded and transferred by the Republic of Hawaii to the United States at the time of annexation. It is not entirely certain, however, whether the definition of lands conveyed by section 5(b) includes all the lands defined as "available lands" for Hawaiian Homes Commission purposes. The proposed amendment would establish with certainty that all "available lands" have been transferred to Hawaii. Many of the provisions of the draft bill are essentially technical and perfecting in nature and either eliminate inappropriate references to Hawaii or make other language changes which are considered appropriate because of Hawaii's changed status.

The Hawaii Statehood Act provides that the State boundaries shall include all the islands and territorial waters of the territory of Hawaii, except the island of Palmyra. The Statehood Act makes no provision for the civil government of Palmyra, other than including Palmyra within the Hawaii Federal judicial district and extending the criminal and civil jurisdiction of the U.S. District Court for the District of Hawaii to the island. The proposed legislation would confer upon such persons and agencies as the President may designate all executive and legislative authority necessary for discharging the responsibilities of civil government on Palmyra Island. The provision would apply also to Midway and Wake Islands whose status is comparable to that of Palmyra. The person designated by the President to administer Palmyra would be authorized to place additional jurisdiction and functions in the District Court of Hawaii, including a land registration system for the island.

The Bureau of the Budget urges early and favorable consideration of the proposed legislation, since its enactment is required to provide for the orderly transition of Hawaii from territorial status to full statehood.

Sincerely yours,

ELMER B. STAATS,
Deputy Director.
